	At appraisal	After restructuring
Description and annual targets	**Year 4:** At least one selected state scores 80 percent on at least the 'Strengthened Service Delivery' SIG component in accordance with the terms of the SIG Manual. **Year 5:** At least one selected state scores 100 percent on at least *the 'Strengthened Service Delivery'* SIG component in accordance with the terms of the SIG Manual.	**Year 4:** At least one selected state scores 80 percent on at least ***one*** SIG component in accordance with the terms of the SIG Manual. **Year 5:** At least one selected state scores 100 percent on at least ***one*** SIG component in accordance with the terms of the SIG Manual.
Baseline	Selected state score on every SIG component is zero percent.	Selected state score on every SIG component is zero percent.

Figure 1. Cumulative number of SIG targets achieved over time.

The third restructuring, approved in 2025, included the cancellation of US$103.79 million in financing linked to DLIs 1, 4 and 6, and funds allocated to TA under the IPF component. The restructuring also included revisions to the definition and sub-targets of DLI 4 (Learning Assessment) and the dropping of Intermediate Results Indicator (IRI) 4.1 to reflect the GoI decision to stop their participation in the PISA study (see Table 3).

Table 3: Summary of changes to DLI 4 during implementation
